

ARM[®] Server R2100

Si tiene ARM[®], tiene una productividad poderosa. Acceda a nuevas opciones y termine sus tareas con facilidad.

Procesador Intel[®] Core[®] i3
Procesador Intel[®] Xeon[®] E3 v5

Hasta 2 discos fijos SATA/SAS

64GB
MEMORIA

Memoria hasta 64GB
(dependiendo del tipo de memoria)

- PCI Express Revision 3.0
- 1 x PCIe x4 Gen 3
- 2 x PCIe x8 Gen 3
- 1 x Connector for Intel[®] I/O Expansion Module x8 Gen 3
- 1 x Connector for Intel[®] Integrated RAID Module

Gabinete Rackeable 1U

Especificaciones Técnicas

| | |
|---------------------|--|
| Procesador | > Intel [®] Xeon [®] Processor E3 v5 Family > Intel [®] Core [™] i3 Processor |
| Mother | > Intel [®] S1200SPL |
| Memoria | > 64GB Max Memory Size (dependent on memory type) |
| Network Controller | > Embedded Intel [®] Dual Gigabit Controller 82574L and 82578DM |
| Storage Controller | > 6 SATA ports |
| Almacenamiento | > Hasta 2 discos fijos SATA/SAS |
| Slots | > PCI Express Revision 3.0 1 x PCIe x4 Gen 3 2 x PCIe x8 Gen 3 1 x Connector for Intel [®] I/O Expansion Module x8 Gen 3 1 x Connector for Intel [®] Integrated RAID Module |
| Sistema Operativo | > Microsoft Windows Server > Red Hat > Linux > VMWare |
| Management hardware | > Integrated BMC with IPMI 2.0 |
| Chassis | > Rack Mount (1U) |
| Fuente | > Simple |
| Integrated graphics | > Server Engine [®] LLC Pilot II [®] Controller with 64 MB DDR2 memory, 8 MB allocated to graphics |
